Dear Program Director,

Lamplighter Theatre is excited to present the radio drama, "My Golden Ship."

This story takes place in a small village on the coast of England during the 1800s and teaches themes of contentment, salvation, and redemption.

The son of a humble fisherman, Charlie often imagines what it would be like to possess the money and status of someone like Claude Rivington. But things aren't always as they seem in this fishing village, and the growing root of envy soon places the boys and those they love in danger. Sometimes the people who seem to have everything are the ones most in need.

After hearing this powerful story, one of our customers wrote us to say "I love the excellent production quality of Lamplighter Theater! 'My Golden Ship' is another well-made audio drama about envy and how the love of Jesus Christ shining through even one single person, can positively impact an entire community."

These stories truly are being used by God to bring redemptive hope to people around the world, and we're so grateful for your partnership in this endeavor.

We're listening to your feedback. Let us know how we can serve you and your listeners better.

We are compelled to produce captivating dramas with a biblical worldview, and we appreciate you and your role in this ministry!

If you have any questions, or if there's any way we can be of further service to you, please call us or email Westar Media Group.

Blessings,

The Lamplighter Team
